Software Engineer | Full Stack Developer

(347) 566-2500 | brecjohnson@gmail.com | New York, NY | linkedin.com/breanaj | github.com/bjohnson122

TECHNICAL SKILLS

HTML5 | CSS | Javascript | React | Redux | Git/GitHub | Express | Node.js | PostgreSQL | Axios | JWT

TECHNICAL PROJECTS

PocketNYC | Progressive Web Application | 11/2022 - 12/2022 | https://pocketnyc.onrender.com/ | GitHub Repo

- PocketNYC provides information on free city resources and public events available in New York City. Developed by a team of four native New Yorkers, our app breaks down traditional barriers to accessing information. Whether you're down on your luck or down for a good time, PocketNYC has you covered.
- Some technologies/features/libraries include: JWT (JSON Web Token) authentication, BCrypt, React, Redux, Axios, AJAX, Express, Sequelize, NodeJS, webpack, the NYC Open Data API, MaterialUI, and Bootstrap
- Responsible for: CSS, UX/UI design, wireframe development, implementing React and Redux, database management, Axios implementation, RESTful API requests, error handling, and debugging.

Bookworm – Grace Shopper | E-commerce Website | 10/2022 | https://book-worm.onrender.com/ | GitHub Repo

- Bookworm is an online bookstore designed as a Single Page Application (SPA) by a team of four developers . The product catalog, shopping cart, and checkout features were designed with the user in mind. Based on their credentials, visitors are able to shop as a guest, user, and/or administrator with a persistent cart.
- Responsible for: CSS, UX/UI design, implementing React and Redux, seeding the database, using Axios requests to access APIs, error handling, and debugging.
- Some technologies/frameworks include: JWT (JSON Web Token) authentication, BCrypt, React, Redux, Axios, AJAX, Express, Sequelize, NodeJS, webpack, the Google Books API, and the New York Times API.

EXPERIENCE

Nail Artist | **Paintbucket Nail Shop** | New York, NY   06/2018 - 07/2022
