# Breana Johnson

Software Engineer | Full Stack Developer

(917) 837-5439 | brecjohnson@gmail.com | New York, NY | linkedin.com/breanaj | github.com/bjohnson122 | https://www.breana.dev/

## TECHNICAL SKILLS

*HTML5 | CSS | Javascript | React | Redux | Git/GitHub | Express | Node.js | PostgreSQL | Axios | JWT*

## TECHNICAL PROJECTS

**Personal Portfolio** | Responsive React Application | 03/2023 | https://www.breana.dev/ | GitHub Repo

My portfolio showcases past projects, current skills, and some very interesting facts that you may not find on my resume. The portfolio also showcases non-technical and transferable skills that I will be applying in my prospective technical role.

- Technologies/features/libraries include: Responsive Web Design, Next.JS, Tailwind CSS, and Framer-Motion
- Utilized reusable components to make an interactive website that is concise, aesthetically pleasing, and user-friendly

**PocketNYC** | Progressive Web Application | 11/2022 - 12/2022 | https://pocketnyc.onrender.com/ | GitHub Repo

PocketNYC provides information about free resources and public events available in New York City. Developed by a team of four native New Yorkers, our app breaks down traditional barriers to accessing information. Whether you're down on your luck or down for a good time, PocketNYC has you covered.

- Some technologies/features/libraries include: JWT (JSON Web Token) authentication, BCrypt, React, Redux, Axios, AJAX, Express, Sequelize, NodeJS, webpack, the NYC Open Data API, MaterialUI, and Bootstrap
- Responsible for: CSS, UX/UI design, wireframe development, implementing React and Redux, database management, Axios implementation, RESTful API requests, error handling, and debugging

**Bookworm – Grace Shopper** | E-commerce Website | 10/2022 | https://book-worm.onrender.com/ | GitHub Repo

Bookworm is an online bookstore designed as a Single Page Application by a team of four developers. The product catalog, shopping cart, and checkout features were designed with our users at the forefront of our decision making. Based on their credentials, visitors are able to shop as a guest, user, and/or administrator with a persistent cart (including added permissions for administrative users).

- Some technologies/features/frameworks include: JWT (JSON Web Token) authentication, BCrypt, React, Redux, Axios, AJAX, Express, Sequelize, NodeJS, webpack, the Google Books API, and the New York Times API
- Responsible for: CSS, UX/UI design, implementing React and Redux, seeding the database, using Axios requests to access APIs, ensuring our app had create, read, update, and delete (CRUD) functionality, and error handling

## EXPERIENCE

**Sr. Nail Artist, Product Illustrator, and Marketing Assistant** | **Paintbucket** | New York, NY     06/2018 - 07/2022

- Led a team of 8+ nail artists while servicing over 30 clients per week in a fast-paced environment by professionally addressing customer concerns and workplace conflicts
- Designed and illustrated tangible products for in-store and e-commerce sales
- Assisted with social media marketing via the creation of Instagram Reels and TikToks to increase engagement and promote company goods (and services)

**Receptionist** | **CityMD Urgent Care Center** | Garden City, NY                                06/2016 - 05/2018

- Securely handled protected information including medical records and company files
- Processed insurance information, collected copays, and obtained prior authorization for procedures
- Answered calls, greeted patients, and completed clerical duties

## EDUCATION

**Fullstack Academy Web Development Bootcamp | Future Code NYC**                           12/2022

*Software Engineering Certificate*

Future Code is a rigorous, immersive, and highly-selective fellowship offered by NYC's Tech-Talent Pipeline that trains students to become full stack developers at Full Stack Academy.

**Delaware State University**                                                                05/2016

Bachelor of Science in Psychology

Delaware State University is a Historically Black College/University (HBCU) located in Dover, DE that promotes diversity, inclusion, and holistic success amongst the student body.
